

Does your child need more individual attention in a small class that uses the best *multisensory* instruction?

Because research shows that all students perform better in small classes, Sophia Academy has a maximum of twelve per class. We instruct students using the acclaimed Orton-Gillingham language learning approach, ideal for all learners.

Scholarship funds are available for students following this criteria:

- *Kindergarten eligible in GA*
- *Currently enrolled in GA public schools, grade 1-9*

Sophia Academy is a non-denominational Christian school, K-9th grade. Originally created solely for students with learning differences, we are responding to our families to include traditional learners.

Call us for an application and more information.

“His teachers have shown a belief in him and his abilities as a whole, not just what he can academically express.”

— *Sophia Academy parent*
